

REBEL WAR COUNCIL CALLS UPON PRESIDENT CARRANZA TO RESIGN

DOCUMENT IS SIGNED BY 72 OFFICIALS OF LIBERAL ARMY

Gov. Dela Huerta, of Sonora, is Named Commander Pro Tem In Edict FIGHT ON AT TAMPICO

Colima is Captured By Rebel Troops; American Warships Enroute

AGUA PRIETA, April 24.—President Carranza is called upon to resign from office in a document called the "Plan of Agua Prieta," adopted by the Sonora war council late Friday and made public today.

The document, which bears the signatures of 72 military officials of the Sonora secessionist army, contains 17 articles. The one referring to Carranza accuses him, among other things, of "abolishing individual rights," and of placing the sovereignty of the various Mexican states in jeopardy.

The revolutionary forces are given the name of the "liberal constitutional army" and Gov. Dela Huerta of Sonora is named supreme commander pro tem.

"In an interview today Gen. P. Elias Calles, commander in chief of the secessionists, declared he had obtained information that Carranza intends to send 19,000 troops against Sonora, but does not believe he will succeed in raising that number.

WASHINGTON, April 24.—A terrific battle for the possession of Tampico oil fields is now in progress between the rebel forces of Gen. Gomez and the federal troops under the leadership of Gen. Murguia, according to advices received here this afternoon by Gen. Alvarado, Sonora representative here. Federal recruits are being rushed from Neuva Leon and Tamaulipas to aid the federal troops, reported to be in a dangerous position.

First word of a revolt in the state of Colima, was reported today by General Alvarado when it was reported that Gen. Renteria, former federal commander in Michoacan, is now menacing the capital of Colima.

SAN ANTONIO, TEXAS, April 24.—Colima, capital of the state of Colima, has been captured by troops formerly commanded by Gen. Luviano at Morelia, Michoacan. This information was contained in authentic reports received here today. Luviano's troops revolted after he was summoned to Mexico City by President Carranza.

SAN ANTONIO, TEX., April 24.—Gen. Obregon now is at El Estero, state of Michoacan, near the Guerrero state line. It was stated here today on reliable authority.

Persistent reports among Obregonista agents today were to the effect that Gen. Gomez, reported to have revolted and captured Tuxpam, has joined forces with Gen. Paelex, rebel leader in the Tampico district.

The combined force of 4,000 men is now marching on Tampico, the reports declared.

Gen. Gonzales, leading 500 former Carranza troops, is said to be marching from the state of Nuevo Leon with a view to joining Gomez and Paelex.

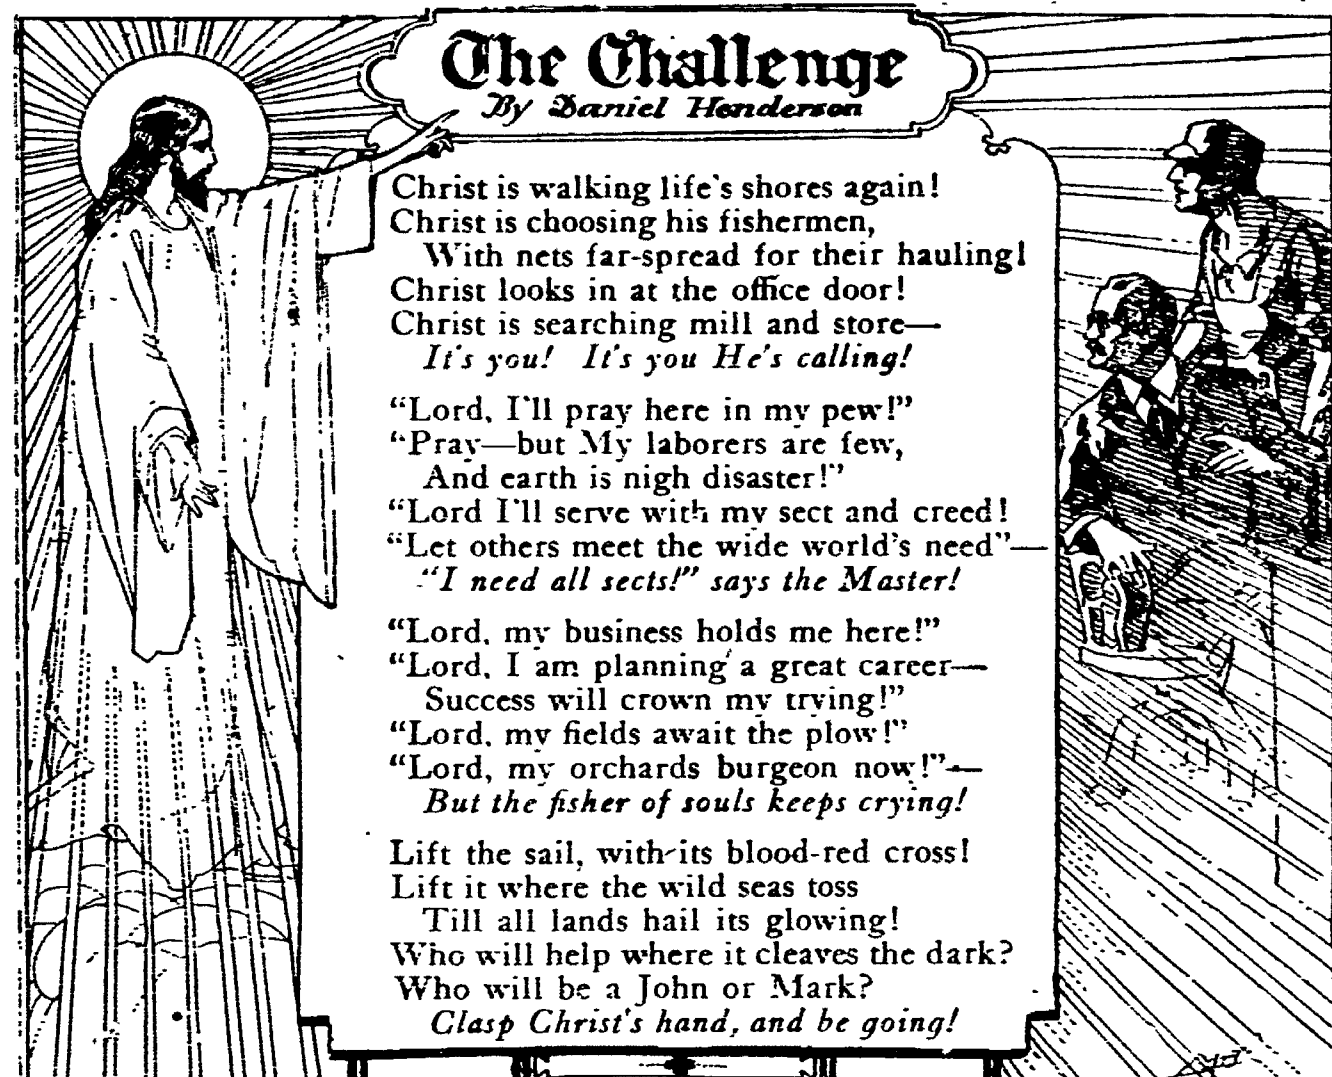

SAN DIEGO, CALIF., April 24.—The United States scout cruiser Salem and the destroyer McCawley got under way for Mazatlan, Mexico, at 8:30 o'clock this morning pursuant to orders from the navy department that United States war vessels proceed at once to the west coast of Mexico, in response to appeals from American citizens there.

Despite urgent preparations for the warships to leave yesterday afternoon according to official order, boiler trouble developed suddenly on the Salem, delaying departure until today.

The Salem and the McCawley will be in Mexican waters several weeks at least, it was said, remaining until all uneasiness of Americans on the west coast has been allayed.

Mrs. Leroy Dawson, Coshocton Route 5, shopped in the city Saturday.

Lewis Reiss, Newcomerstown Route 2, spent Saturday in Coshocton.

The Challenge

By Daniel Henderson

Christ is walking life's shores again!
Christ is choosing his fishermen,
With nets far-spread for their hauling!
Christ looks in at the office door!
Christ is searching mill and store—
It's you! It's you He's calling!

"Lord, I'll pray here in my pew!"
"Pray—but My laborers are few,
And earth is nigh disaster!"
"Lord I'll serve with my sect and creed!"
"Let others meet the wide world's need!"
"I need all sects!" says the Master!

"Lord, my business holds me here!"
"Lord, I am planning a great career—
Success will crown my trying!"
"Lord, my fields await the plow!"
"Lord, my orchards burgeon now!"
But the fisher of souls keeps crying!

Lift the sail, with its blood-red cross!
Lift it where the wild seas toss
Till all lands hail its glowing!
Who will help where it cleaves the dark?
Who will be a John or Mark?
Clasp Christ's hand, and be going!

This poem is the contribution of Daniel Henderson, well known as a magazine man and writer of verse, to the success of the Interchurch World Movement, which is thirty denominations in co-operation. The purpose of the International Movement is to promote co-operation among America's churches in their missionary, benevolent and educational enterprises all over the world.

WOOD'S MANAGER SAYS HARDING'S WORKERS ARE ON \$25 DAY SALARY

COLUMBUS, O., April 24.—"I now repeat the charge, which is confirmed by reports coming in from all sections of the state, that men are being offered \$25 a day to work for Senator Harding," declared John H. Price, Ohio campaign manager for General Leonard Wood, in a statement issued here this afternoon.

If only one worker were employed in each precinct for one day this enormous yellow dog election day fund will amount to at least \$150,000," Price continued. "We are interested in knowing the amount that will be expended next Tuesday by the Harding managers."

MINERS MODIFY WAGE DEMANDS; AGREE TO 8 HR. DAY IN PARLEY

NEW YORK, April 24.—The scale committee of the anthracite mine workers today abandoned their demand for a six-hour day and substantially modified their demands for increased wages. The miners' representatives and operators have been in session here for six weeks on a new wage scale.

The six hour day was shelved and an eight hour day for all classes of mine labor was substituted. Instead of the sixty per cent increase in wages the committee decided to demand the same rate of pay increases for the anthracite miners as were recently granted the bituminous miners by the president's coal commission, and time and a half for overtime, with double time on Sundays and holidays.

Both sides believed this afternoon that an agreement will be speedily reached.

NEBO SCHOOL IS WINNER OF CUP

The New Castle township speaking and spelling contest was held Wednesday evening at the Nebo church. Harry Hughes of the Nebo school won the spelling cup and gold medal. Spelling honors for the past three years have been awarded to the Nebo school which gives the school the right to retain the cup. Wilma Almack of the Moab school was awarded first prize in speaking and Effie Rahn of Honey Run school won second prize in speaking.

HARDING INVITES REPUBLICANS OF OHIO TO TENDER PARTY VOTE OF CONFIDENCE NEXT TUESDAY

BOTH HARDING AND WOOD ARE SERENELY SURE

COLUMBUS, April 24.—The closing hours of one of the hottest campaigns in the history of Ohio political primaries found an abundant display of confidence on both sides in the contest between United States Senator Warren G. Harding and Major General Leonard Wood for endorsement at the polls next Tuesday for the Republican presidential nomination.

Absence of excitement in the Democratic camp is due to the fact that Gov. Cox's presidential candidacy has no apparent opposition in Ohio. Democrats Tuesday through Ohio will vote for an uncontested Cox delegation to the Democratic convention.

"The primary result will not only show an unmistakable Republican trend throughout the state, but equally unmistakable will be the verdict that Harding is the logical and best fitted man to lead the party to the victory, that is the fervent hope of the nation," reads a statement issued here today by Josiah Binsley, president of the Harding-for-President club.

"Ohio voters, both in the state at large and the separate congressional districts," (Continued on Page Ten)

SNYDER SAYS THAT SEN. HARDING WILL BE G. O. P. CHOICE

Seth M. Snyder, chairman of the Coshocton co Republican executive committee, gave it as his opinion Saturday evening that Senator Harding's delegates in the Seventeenth District would carry handily in this county, as well as the Harding delegates-at-large.

"On the eve of the presidential primary," said Mr. Snyder "the situation is most satisfactory to the senator's supporters. He has conducted a vigorous campaign in every section of Ohio, but thru it all he has been a gentleman and no word has escaped his lips that will cause either him or his party regret when the Chicago convention has made its choice."

"Reports from both rural and city districts in widely separated localities in Ohio are encouraging to Senator Harding's friends and I do not think there is any question but Ohio will back her distinguished son to a successful conclusion in the convention. He will win because he has conducted a campaign that deserves to win."

Is Willing to Stand On Merits of His Career As Senator From Ohio—Is Not Candidate By Choice, He Says

COLUMBUS, April 24.—An invitation to Ohio Republican voters for a vote of confidence at the presidential preference primaries next Tuesday was issued by United States Senator Harding here today.

"My candidacy for Ohio's support in the Republican presidential primary was not of my choosing," declared Senator Harding. "It came in response to a call from Ohio Republicans who have honored me generously already, and I responded to what seemed to me to be a call to service."

"In spite of misrepresentation, misquotation, excessive organization, mainly sponsored outside our state, in spite of activities in the name of Republicans which are more calculated to aid the opposite party than promote Republican success at the polls, I have sought to further party success at home, and I confidently believe our best service to party—which means service to country—lies in making for harmony and success in our own state."

"If I have served you faithfully and well in the senate, I invite your vote of confidence next Tuesday."

"There will be no doubt about delegates who are running in my name doing their utmost and best in the national convention to write a covenant of Republican faith, and choose a nominee who best typifies it and, thus appeal to the confidence of the nation."

"The issue in Ohio is whether our state shall continue to send delegates to national conventions bearing the banner of confident Ohio Republicanism. The first importance attaches to what we shall do among ourselves in Ohio, whether we may still aspire in our own state to continue eminent relationship to Republican success in the nation. The delegates to the national convention will select the nominee, but the voters in Ohio decide whether they choose to offer a candidate."

Workman Is Given The Verdict In Hog Case

The jury in the case of Frank W. Workman against Robert Kirk returned a verdict in favor of the plaintiff Friday afternoon for the amount sued for. Workman brought suit last October for \$965.65, alleging that he lost this much by reason of Kirk's failure to carry out a contract for the sale of hogs.

Mrs. Thomas Archer, Coshocton Route 2, shopped in the city Saturday.

SENATOR DEMANDS LAW ENFORCEMENT TO LOWER PRICES

WASHINGTON, April 24.—Calling upon "the law enforcing officials of the government to resign," if they cannot "curb the profiteer and enforce the law," Senator Capper, Republican, of Kansas, today addressed the senate on the question of the high cost of living.

"Strikes and industrial disorder have come as a result of rampant, long continued and unrestricted profiteering," Capper said. "If the law-enforcing officers of the government can not enforce the laws they should resign."

AMERICA MUST BE CONSULTED IN ADJUSTING MAP OF WORLD

Presence of Johnson at San Remo Indicates the President Has Hope For League of Nations and American Membership

WASHINGTON, April 24.—The United States must have a hand, even tho an unofficial one, in shaping all peace settlements in Europe which may involve her as a future member of the league of nations or she will withdraw from further participation in the affairs of the old world.

This interpretation has been placed upon the presence at San Remo of Robert Underwood Johnson, ambassador to Italy, and Leland Harrison, counselor of the Paris embassy, with instructions to report to this country on what takes place at the conference of the prime ministers of Italy, France and Great Britain.

It is also taken to mean that President Wilson is as firmly convinced as ever that the league of nations is not only far from being a dead issue but that the United States will ultimately take her place as a member in full standing.

With this conviction in mind, it is pointed out, the president naturally must be anxious that none of the acts of the three premiers will be of such a nature as to make the entry of America into the league more different than it is already.

Just what the white house thinks of the reported attitude of Lloyd George, British representative at San Remo, who is credited with being strongly opposed to Ambassador Johnson "sitting in" at the conference as mere observer without power to act, is not known, but it is believed that the president will take no notice of it unless brot to his attention thru diplomatic channels. It is not believed that this will be done.

The president is still interested in the fate of Turkey, Armenia, the Adriatic and other European problems which have a direct or indirect bearing on the peace treaty of Versailles or league of nations, and for that and other reasons, it is said, wished to have first hand information on all that goes on at San Remo.

Furthermore he is expected to be called upon to state his views on some of the questions now being discussed and in order to do this intelligently, he must keep himself informed thru channels especially created by him for this purpose.

SCHOOL YEAR AT BUCKLEW RUN IS ENDED THURSDAY

The first grade rural school at Bucklew Run, Bethlehem tp., closed the school year Thursday. At noon a picnic dinner was served by the patrons of the school. An interesting program was rendered by the pupils at the close of the dinner.

Those participating in the closing day exercises were: Mr. and Mrs. William Davis, H. A. Waters, Mr. and Mrs. Milo Fisher, Mr. and Mrs. John Davis, Mrs. Emmanuel Sheetz, Mrs. W. P. Myers, Mrs. Foy Laughlin, Mrs. Fannie McGregor, Mrs. Roy McClure, Mrs. F. H. Fawcett, Mrs. H. M. Bender, Misses Ida Frederick, Pansy Infield, Clemmie Sheetz and the Messrs. Arthur Fisher, Harold McClure, Resse Laughlin, Raymond Dewitt, Burton Infield, the teacher, W. R. Root and pupils.

Child Operated Upon

Edward Thompson, the five year old son of Mr. and Mrs. Asa Thompson underwent a minor operation at Dr. Smalley's office Saturday morning. The operation was performed by Dr. Samuel Cohen assisted by Dr. L. C. McCurdy.

RAILROAD STRIKERS WILL TAKE THEIR FIGHT TO U. S. CONGRESS; WANT PRESIDENT TO INTERCEDE

HEADS CHILDREN'S BUREAU CAPABLY

Miss Caroline Fleming at her desk.

Miss Caroline Fleming is in charge of the children's bureau of the department of labor while Miss Julia Lathrop is touring Czechoslovakia. Miss Fleming is credited with being a very capable woman in the department although, like Miss Lathrop, she is unmarried.

Late Flashes

WASHINGTON, April 24.—The railroad labor board has notified A. K. Mahany of the Cleveland Yardmen's association that his application for a hearing has been denied on the grounds that members of the organization have not complied with the law.

PHILADELPHIA, April 24.—More than thirty persons were injured today when a Pennsylvania freight train hit a trolley. The trolley was thrown from the tracks in the crash. Those who were hurt were mostly women and children.

LONDON, April 24.—After a two hours' conference, Premiers Lloyd George and Millerand reached an agreement on the disarmament and reparations clauses of the treaty, according to a dispatch from San Remo. The allied council will make an estimate of the amount of reparations from Germany and representatives of the German government will be called upon to make suggestions.

ST. LOUIS, April 24.—Representatives of 200,000 maintenance of way men and shop men of twenty-four roads entering here voted to present wage demands for a flat increase of a dollar a day immediately.

DERBY, CONN., April 24.—Yale won the varsity rowing race from Columbia today by half a length. The time was eleven minutes.

WASHINGTON, April 24.—President Wilson today approved the post-office appropriation bill providing for airmail service between New York and San Francisco.

WASHINGTON, April 24.—Bids will be advertised for in a few days for the sale of the Hog Island ship yards. Admiral Benson, chairman of the shipping board, stated today.

WASHINGTON, April 24.—Acting upon tips from consumers, the department of justice today began a nationwide search for big sugar hoarders among manufacturers and other large users.

LONDON, April 24.—A clash has occurred between French troops and citizen guards on one side and armed workmen on the other at Tetschen, according to a Central News dispatch from Berlin. The dispatch says there were many casualties including Major Forumon, a French officer. The trouble started when troops and guards attempted to disarm workmen.

BELVEDERE CLUB TO HOLD BANQUET

The Belvedere club will hold a banquet at the Park hotel Monday evening, May 3. Besides the club members, those who assisted in the Belvedere minstrel will be honored guests. Attorney C. Homer Durant will be toastmaster. A special program has been arranged for the occasion.

Movement On Foot to Oust W. G. Lee As Head of Trainmen and L. E. Sheppard, Conductors' Official

WASHINGTON, April 24.—"Out-law" railroad strikers are going to take their fight to congress, R. J. Mitchell of Chicago, representing the United Enginemen, announced today. Mitchell said the outlaws will petition congress to direct the president to intercede in their behalf.

A movement is under way to oust W. G. Lee as head of the Brotherhood of Railroad Trainmen, according to a statement made here today by A. K. Mahany, of the Cleveland Yardmen's Association. Mahany declared that a number of resolutions demanding this step have already been filed in the headquarters in Cleveland.

A similar movement has been started against L. E. Sheppard, of the Brotherhood of Conductors, George W. Koehl, of Philadelphia, representing strikers on the Philadelphia and Reading, stated.

COLUMBUS, April 24.—The railroad yardmen who walked out here two weeks ago today refused to yield their demand for recognition of their newly formed organization, the Columbus Yardmen's Association on the other hand, the railroad managers persist in their refusal to enter into conference with the "outlaws."

With the walkout continuing, officials and leaders of the striking yardmen were holding conferences here today.

CLEVELAND, April 24.—Branding the government threat, that all striking railroad men and their leaders who did not return to work here today would be arrested under the Lever Act as "bluff," the men refused to return to work until their demands had been recognized.

Frank J. O'Rourke, president of the Cleveland Yardmen's Association placed the matter plainly before the strikers at two meetings and in each case the decision was unanimous to remain out "win or lose."

John F. Sawken, of the department of justice, who served the government's ultimatum on the strikers yesterday, refused to make any definite statement regarding the arrests but intimated as did other federal officials that no arrests would be made today or tomorrow. Sawken attended the strikers' meetings called to consider the ultimatum but stated that nothing objectionable had transpired.

Reports from the yards today indicated that practically none of the strikers had returned today. Anticipating that the ultimatum is a "bluff," the strikers today were making arrangements for a mammoth meeting here tomorrow night, which will include beside strike business an entertainment featuring Johnny Kilbane in a boxing bout.

ELECTION RETURNS MUST COME EITHER BY MESSENGER OR MAIL THIS MONTH

Absence of telephone service will obviously delay collection of primary election returns Tuesday night and Wednesday at this office.

If election boards of the various precincts will rush a copy of the vote results to this office by messenger or mail it will greatly facilitate the early compilation of the returns, and effect a mutual service of importance. The public is concerned most in the preferential vote for Harding and Wood, Republicans; and Cox, Democrat. Preferential votes written in are of interest, also.

Next in importance is the vote for Wood district delegates, and lastly, the vote on delegate-at-large.

BOTH ROADS NOW OPEN TO TRAFFIC

The waters of the Tuscarawas and Walhonding rivers have receded from the Roscoe and Canal Lewisville roads but the neighboring fields are still covered. Traffic has been resumed on both roads. The big tree, which was lodged on the Canal Lewisville road, was removed Saturday. Both rivers were falling rapidly Saturday and the roads were cleared of water about noon.

W. D. McCoy and J. W. Larr, Coshocton Route 6, were in town on business Saturday.

WORLD'S LARGEST FARM AGENCY "THERE'S A REASON"

3,658 sales, totaling nearly \$18,000,000 during 1919, to 3,568 satisfied customers, making 20,000 sales during the past 20 years is a record to be proud of and the result of a nation wide reputation for value giving and square dealing.

149,362 buyers wrote us about farms last year, while 17,265 buyers called at our offices in New York, Boston, Chicago, Pittsburgh, Detroit, Minneapolis, Omaha, Philadelphia, Jacksonville and other cities.

WE USE OUR MONEY GENEROUSLY TO FIND A BUYER FOR YOUR FARM

Advertising in newspapers, farm journals and magazines throughout the country at a cost of over \$150,000 per year; as much more spent in cataloging; and maintaining at big expense offices throughout the country to aid our customers are some of the ways we help get a customer for your farm.

ODDS 20 TO 1 IN FAVOR OF STROUT, SAYS RAVENNA MAN

H. H. Hughes, of Ravenna, Ohio, whose farm we sold, says, "Your numerous representatives in all parts of the country will bring buyers 20 chances to one against any local agent," and this is in a section where farm salesmen are as thick as flies around molasses.

NO EXCLUSIVE LISTING

Our method of doing business is based upon fairness and justice. Every farm owner who has had any experience with exclusive listings will appreciate the fact that we do not and never had listed any farm property in this way. If you list with us, YOU OWE US NOTHING UNLESS WE SELL YOUR PLACE. In the meantime you have the right to sell and if you do there is no charge of any kind made by us, unless you sell to our customer. You have therefore, everything to gain and nothing to lose listing with us. THE FARM JOURNALS WILL TELL YOU NEVER TO LIST YOUR PLACE UNDER AN EXCLUSIVE LISTING.

If you want to sell your farm, write today for full information, to

THE HIGH COST OF LIVING

Anyone who begins to read this article will, I hope, read it thru and then with an unbiased mind weigh the facts. No one has been blamed more and deserved it so little for the present high cost of living as the farmer. Farmers have a problem and a responsibility of feeding the people; not only this week, but next year and all time. We must put agriculture on a paying and attractive basis permanently, so there will continue to be men who choose the farm for their life work; men who will be able to produce enough to feed the people.

To find out how much the farmer is to blame for the high cost of living, and how much a substantial reduction in farm products would effect the cost of living, the Illinois Agricultural Association held two families in Chicago for a week, keeping track of the amount and cost of the food used by these two families.

"Gust Lindh, father of seven children, ranging from seven months to twelve years, paid \$5.25 in the week for the four necessities of life that come directly from the farms. This included 19 1/2 loaves of bread, 8 1/2 pounds of meat, 22 quarts of milk and 8 pounds of potatoes. Of that \$5.25 the farmer gets \$3.48. Some one else gets \$1.77. The 19 1/2 loaves of bread cost \$2.29 and the farmer gets \$4 cents for the wheat that goes into it. Others get \$2.40 to reduce wheat 75 cents per bushel to make a loaf of bread cost a penny less. It would mean that the farmer would have to take less than the cost of production.

"Gust Lindh" gets \$2.00 a week and does some extra work nights and Sundays, so it keeps him pretty busy working to make the money go round.

In case of that milk was used in every meal, because Mrs. Lindh says milk is the best food for children. The 22 quarts of milk cost \$2.29. If the farmer gets 40 cents per quart, he gets \$8.80 for the milk.

added 100 per cent to the cost. Of the \$2.29 the farmer got half.

No meat was used for breakfast and none on Friday. Only the cheapest cuts were used at all. The figures show that the farmer gets 90 cents out of the \$1.78 spent for the 5 3/4 pounds of meat. The eight pounds of potatoes used cost 24 cents and again someone added 100 per cent to the cost from the time they left the farm until they reached the consumer.

The figures show that the farmer gets 42 per cent of the money this family spent on meat, milk, bread and potatoes. A family was picked that used cheap foods and showed economy in purchasing, so the figures would be fair. Another family with only two children was fed the same week that used a little higher class of food and more of it. The family spent \$10.18 for the four farm products and the farmer got 41 per cent or \$4.23.

These figures indicate that any reasonable reduction in the price of farm products would not make much difference to the consumer. It would take 48 cents off per 100 pounds of milk to make a cent less a quart, and 75 cents off a bushel of wheat to make bread a penny cheaper per loaf. In either case the farmer would not be getting the cost of the production.

Another recent example is the hog price dropping ten cents per pound in ninety days with no change in the retail prices of pork. City people know that they cannot afford to eat food that is sold for less than cost of production by the farmer. It would mean that farmers would gradually raise less and food would be higher than ever. Farmers are ready to cut the cost of living to the very limit if others will do the same, but they cannot do it alone. Everything the farmer buys is high and there has been no reduction.

These comparisons we have been making are based on food purchased and prepared in the home. Let us go to the restaurant and see what happens. Milk toast that cost 25 cents has three cents' worth of farmers' wheat and milk in it. If the farmer were to make a reduction of one-half in the price of wheat and milk it would make a reduction of only 1 1/2 cents in the cost of your milk toast. A fancy sandwich which costs 50 cents has six cents' worth of farmers' products in it. If the farmer gave his products for nothing the sandwich would cost 44 cents.

Carrying these comparisons into clothing the farmer's share is almost insignificant. The seven months' old baby in the Lindh family got a new all-wool shirt. It cost \$1.05 and weighed 2 1/2 ounces and had less than 18 cents worth of farmers' wool in it. Four year old Lillian Lindh had to have new shoes. They cost \$1.49 and there was 15 cents' worth of leather in them based on the price received for the best steer hides. Still they blame the farmer for profiteering.

Solution and Treatment of Potato Scab

No. 1. 40 per cent solution of formaldehyde. One pint to 30 gallons water.

Soak uncut seed in this solution two hours. This will free the seed from scab, and if the potatoes are planted on scab free land, clean potatoes should be grown.

No. 2. Another treatment sometimes used is corrosive-sublimate, two ounces, to 15 1/2 gallons water. Label this poison. Have your druggist pulverize the corrosive-sublimate. Soak uncut seed in this solution for one hour.

Time Increased Yield

Limestone properly used is a big and to practically all farms in eastern Ohio, says Prof. Myron Decholt, of the soils department, Ohio State University. The ten years average results of experiments at the Ohio Agricultural Experiment Station have increased value of crops due to the application of two tons pulverized limestone from \$5 to \$7.50 per acre per year. The limestone was applied once in a five year rotation of corn, wheat, oats, clover and timothy. The cost of two tons pulverized stone should be from \$5.00 to \$7.00. The return from figures shown above would be from \$25.00 to \$37.50 making a clear profit of something over 60 per cent. Do you know of a better investment? Limestone is more effective on well drained, well fertilized and well tilled soils.

Up or Down the Hill

Which way is your live stock going? Are you improving or lowering your quality?

Tom Jones and John Brown live on adjoining farms. Each of them owns a scrub cow. The county agent gave them a United States department of agriculture bulletin on grading cows by the use of better sires, and they have decided to try it.

Joe Smith who lives a mile down the road owns a three-quarters grade Shorthorn bull. The nearest pure-bred Shorthorn bull is a herd header at the Ellendale farm, seven miles away. Now, there isn't a great deal of difference on the outside between a three-quarters blood and a pure-bred. Tom Jones, being busy, patronizes Joe Smith's three-quarters Shorthorn bull. John Brown remembers a copy-book maxim that what ever is worth doing is worth doing well, takes the trouble and the time to patronize the pure-bred bull at the Ellendale farm.

Short Cut to Good Blood

There would seem to be very much difference in the offspring. But in actual fact, John Brown accomplishes in two crosses a result that is a little better than Tom Jones gets in two crosses. In about four years John Brown has had an animal of a fraction higher grade than Tom Jones can get in about 15 years.

There may be no way to show it mathematically, but every reasonable man knows that the difference be-

tween four years - and 15 years is greater than the difference between a mile and seven miles.

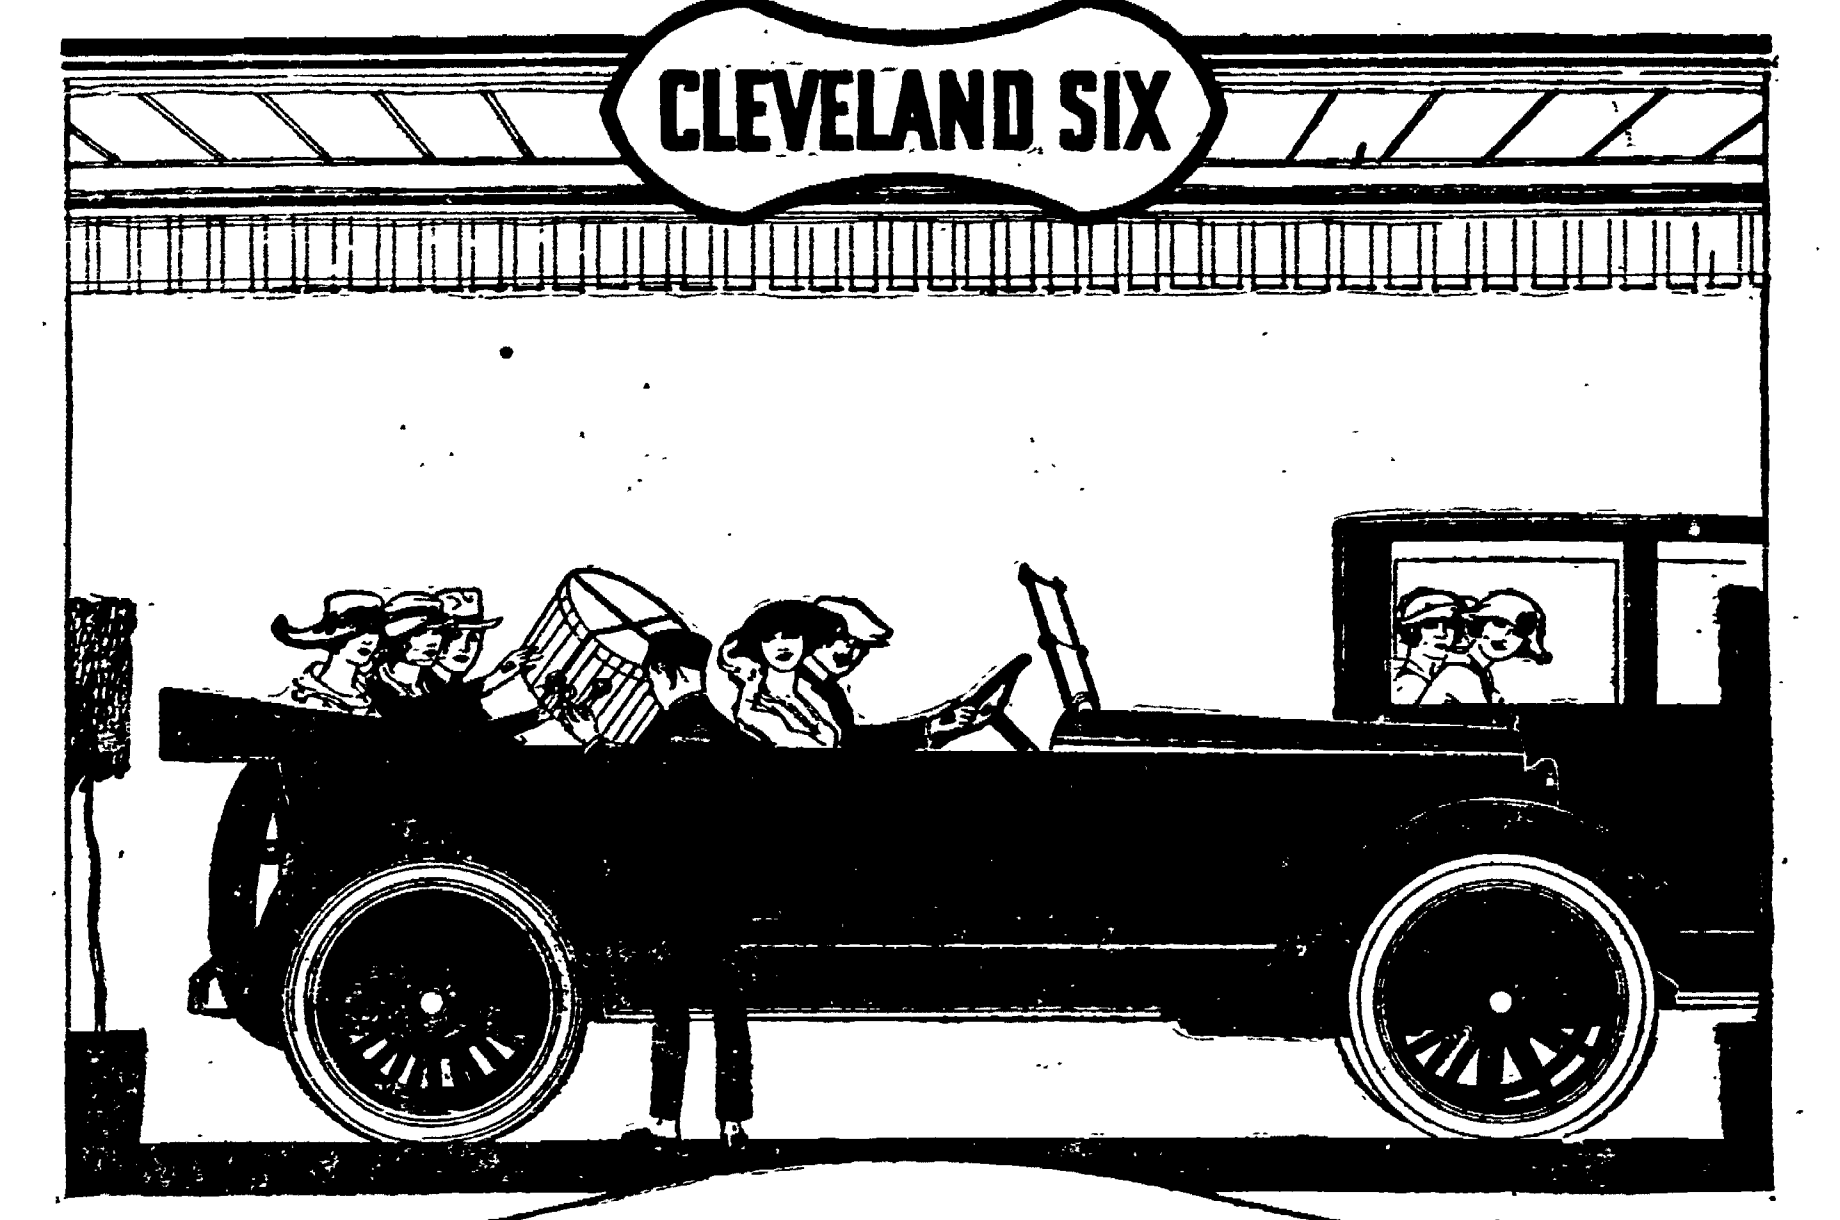

Or, put it in somewhat different form, say that both Tom Jones and John Brown own a number of scrub cows and desire to buy bulls. Jones, being penny-wise, buys a three-quarter Shorthorn for \$150. Brown pays \$400 for a pure bred Shorthorn. Most men will agree that the difference between four years and 15 years is greater than the difference between \$150 and \$400.

The thing needs a little diagramming to make the difference stand out. Here is what John Brown did by breeding his scrub cow to the pure bred bull: 1 plus 0 equals 1: divided by 2 equals .5.

John Brown's calf was half Shorthorn and half scrub.

Here is what Tom Jones did by breeding his scrub cow to the three-quarters bull: 3/4 plus 0 equals 3/4: divided by 2 equals 3/8.

Tom Jones' calf was three-eighths Shorthorn and five-eighths scrub. Not much difference in the first generation—but wait. Using those better calves as breeding stock and mating them with the same kind of bulls.

Take a Real Ride in the Cleveland, and You'll Know What a Car It Is

The Cleveland Six, the sensation of the year among light sixes, is selling itself to thousands who use discrimination in picking out the car they want.

To attempt to describe the qualities of the Cleveland Six is no easy task. You must ride in it to know it. Take a real ride and you begin to understand that here is a better light six, very much better. It has an enclosed over-head valve motor, of exclusive-Cleveland design and manufacture and tested in road work for three years before being offered the public, that gives performance unsurpassed.

A real ride will show you, better than can be told you, that the Cleveland has power and pick-up and flexibility and ease of driving that do not come with many other cars. Low-hung spring suspension and splendidly upholstered cushions wipe out the road-bumps. Beautiful body lines place the Cleveland above the usual plane in appearance. Upholstery is of genuine hand-buffed leather.

Come let us show you what a car the Cleveland is

Touring Car (Five Passengers)	\$1385	Roadster (Three Passengers)	\$1385
Sedan (Five Passengers)	\$2195	Coupe (Four Passengers)	\$2195

(Prices F. O. B. Cleveland)

W. M. KNOFF & SON, 722 John St.

CLEVELAND AUTOMOBILE COMPANY, CLEVELAND, OHIO

\$1385

here is what happens: John Brown gets 1 plus 1 which equals 1 1/2: divided by 2 equals 3/4.

Tom Jones gets 3/4 plus 3/8, equals 9/8: divided by 2 equals 9/16.

John Brown's calf in the second generation outgraded Tom Jones' calf in the second generation by 3/8 Shorthorn blood.

It Pays to Start Right

And Tom Jones has to breed three other generations of cattle (using the same kind of sire) to bring his cattle up to approximately the same grade as John Brown's second generation of offspring. In the meantime using the same kind of bull, John Brown has graded his cattle up till the offspring of the original scrub cows contain 31/32 Shorthorn blood and only 1/32 scrub blood. Tom Jones' cattle in the same generation, contain 93/128 Shorthorn blood and 35/128 scrub blood. Jones' herd, after 15 years of work, still retains 35 times as much scrub blood as John Brown's cattle—all because, 15 years ago, John Brown took the time and trouble to travel seven miles instead of a mile or saw his way clear to spend \$400 instead of \$150. The cost of bulls varies greatly of course, according to quality of breeding, age and other factors.

The moral of the story, as the breeding experts of United States department of agriculture tell it, is to use pure bred sires for herd improvement. Replace the scrub sires and the grade sires with good pure-breds. Join the "better sires, better stock" campaign. And consult your county agent, your agricultural college or the United States department of agriculture from time to time for whatever information you may need.

McCrest Altshuler Conductor of the New York Russian Symphony Orchestra at the Sixth St. Theater Thursday Night.

ROUMANIA IS ANXIOUS TO RESTORE PRE-WAR CONDITIONS

New Premier Proposes Program—Railway Stock is Need of Country

LONDON, April 24. — Roumania is making a new and determined effort to get back to pre-war conditions as rapidly as possible, according to dispatches received here from Bucharest. The program put forward by the new Premier, General Averescu, includes:

- Immediate peace with the Bolsheviks.
- Disbandment of the Roumanian army.
- Utilization of army engineer and other technical units as labor battalions to restore railways, roads, telegraph and telephone lines.

Gradual bestowal of civic and political rights upon women.

Keeping elections free from the influence of civil servants.

Reduction of the Roumanian Chamber from 524 to 300 members.

Roumania's greatest need is railway stock and agricultural implements. Help is expected from Japan, whence Prince Charles has gone on such a mission.

Tchitcherine, Russian Foreign Commissary, has promised Premier Averescu to recognize Roumania's claim to Bessarabia, formerly part of Russia, and to return Roumanian gold and securities sent to Russia during the German invasion.

Walker Will Come Again

Owing to the bad condition of the roads and high water, Mr. Walker, secretary Ohio Sheep and Wool Growers' Association has agreed to attend another meeting to be held at Coshocton, Ohio, on May 15th at 7:30 p. m.

Please leave laundry on front porch so that our solicitors may see and get it.

NEBRASKA WOMEN EX-WAR WORKERS NOW IN POLITICS

Mrs. Lulu T. Andrews (above) and
Miss Edna Perrin.

Political parties in Nebraska are
drafting war workers for executive
positions in the presidential cam-
paign organizations. Mrs. Lulu T.
Andrews, of Lincoln, who was a Y.
M. C. A. canteen worker has been
made chairman of the woman's divi-
sion of the state Republican com-
mittee. Miss Edna Perrin who was
overseas a year in canteen service
has been appointed state organizer
in the Pershing-for-president cam-
paign.

NEW YORK RUSSIAN SYMPHONY ORCHESTRA WILL GIVE CONCERT HERE THURSDAY OF THIS WEEK

The New York Russian Symphony
Orchestra which now occupies an en-
viable place in the front rank of
symphonic organizations in this coun-
try will be a welcome guest in Co-
shocton on Thursday evening of this
week.

Under the leadership of Modest
Altschuler the orchestra has a leader
to whom the most minute detail is a
matter of paramount importance with
the result that the extraordinary gifts
of the celebrated musician are
poured out in their fullest measure.
while his refined art has raised the
standard of orchestra performance to
the attainment of the highest ideals.

The orchestra numbers 50 musi-
cians all of whom were personally
selected by Mr. Altschuler, and col-
lectively they are one of the finest
organizations of ensemble artists in
America. The orchestra carries two
soloists which gives a variety of en-
tertainment. The prices for this at-
traction range from 75c to \$2.00. The
box office will be open today, Sunday.

CIVIL SERVICE JOB BANE TO POLITICIANS

COLUMBUS, April 24.—The pro-
visions of the state civil service act
prohibiting state employees from doing
anything besides voting in connec-
tion with political campaigns applies
to persons holding any temporary
positions as well as those occupying
permanent jobs. The ruling was
given by Attorney General Price to-
day to the State Civil Service com-
mission.

It is claimed a number of state em-
ployees have been circulating campaign

literature and doing other work in
behalf of political candidates.

GOLF SEASON WILL OPEN HERE MAY 27

At the annual pre-season meeting
of Coshocton golf players, held this
past week, Charles Ransom, Jr. was
again chosen captain, E. B. Smith, as-
sistant and T. B. Anderson, treasurer
of the locker house funds. Announce-
ment was made that the Mt. Vernon
Country Club had been admitted to
the Southeastern Ohio Golf Associa-
tion, which is now composed of Co-
shocton, Newark, Zanesville, Cam-
bridge and Mt. Vernon. Golf teams
representing these five clubs have ar-
ranged their seasons schedule, start-
ing Thursday, May 27 and ending
Thursday, October 7. Coshocton is
scheduled to play as follows:

At Home
May 27, Mt. Vernon; July 29, Cam-
bridge; August 26, Newark; October
7, Zanesville.

Abroad
June 10, Cambridge; July 15, Mt.
Vernon; August 12, Zanesville; Sep-
tember 23, Newark.

The local course is fast rounding in-
to shape and under the supervision
of J. L. Aronhalt, who has resumed
his former position of grounds keep-
er, will soon be in splendid playing
condition. In addition to the league
games, local players will compete for
silver trophies donated by members
of the Coshocton club, as follows:
Memorial Day, for the H. D. Beach
cup; July 4th, for the C. R. Fred-
erickson cup; Labor Day, for the Geo.
M. Gray cup, and the final cham-
pionship match for the J. P. Forbes
cup. An early season match is also
scheduled for a silver cup donated by
the Golfers Magazine.

Captain Ransom has also announced
that regular caddies, who are in good
standing, will be given the privilege
of the golf course each Monday morn-
ing, after June 1, and that regular
monthly caddy tournaments will be
arranged, for when appropriate
prizes will be given. Experienced
caddies will also be granted an in-
crease in fees, the new rate being 20c
per hour. New and inexperienced
boys will receive 15c per hour until
they have caddied 20 9-hole rounds,
when they will also receive the ad-
vance.

PALMER EASES UP ON RAIL STRIKERS AT CLEVELAND, SAT.

WASHINGTON, April 24.—At-
torney General Palmer this afternoon
wired to United States District At-
torney Wertz at Cleveland, O., that
any threats of prosecutions of railroad
strikers are "entirely improper" at
this time and asked for full advice as
to reports that department of justice
agents had told railroad strikers in
Cleveland to go back to work or to
jail.

BRITAIN GETS TWO MORE GERMAN SHIPS

LONDON, April 24.—The German
war ships Posen and Oldenburg, were
surrendered to the British today. Both
arrived at the Firth of Forth and were

COLDS Head of chest are best treated "externally" with VICK'S VAPORUB "YOUR BODYGUARD"—30c. 60c. \$1.20

turned over to replace two of the in-
terned German warships that were
sunk by their crews at Scapa Flow.

JOHNSON RUNS AWAY WITH THE MONTANA VOTE

BUTTE, Mont., April 24.—Incom-
plete returns on the presidential pre-
ference primary in Montana early Sat-
urday from leading cities and towns
indicated that Senator Hiram Johnson
would carry the state by a large ma-
jority. Figures from 225 precincts
out of 1500:

Johnson 7,176; Wood 1,389; Lowden
1,029; Hoover 1,338; Harding 141.
While there was no Democratic pres-
idential candidate in the primaries,
scattering returns showed that the
names of William J. Bryan, William
G. McAdoo and President Wilson had
been written in.

GOV. SMITH WILL SIGN DRINK ACT

ALBANY, April 24.—On the closing
day of its session today, the New York
legislature passed a bill legalizing the
sale of 2.75 per cent beer in New York
state. The measure was passed by

the senate early this morning after an
all night session and was passed by
the assembly late this afternoon.

The bill now goes to Gov. Smith,
who has announced that he will sign
it.

BOLSHEVIK GOV'T HOPES TRADE MAY NOT BE PREVENTED

MOSCOW, April 24.—George Tch-
cherin, the Bolshevik foreign minis-
ter, has sent a note to England de-
ploing the ultimatum of 2,000 Curzon,
the British foreign secretary which
will endanger the reestablishment of
trade relations between western and
"eastern Europe," it was announced to-
day.

The Bolshevik foreign minister takes
the stand that only direct negotia-
tion between Russia and other coun-
tries will solve the questions involved
and open up the way for a resump-
tion of commerce.

WILSON SIGNS THE PRINT PAPER ACT

WASHINGTON, April 24.—Impor-
tation of print paper valued at eight
cents a pound or less without tariff
levy is provided in a bill signed by
the president today.

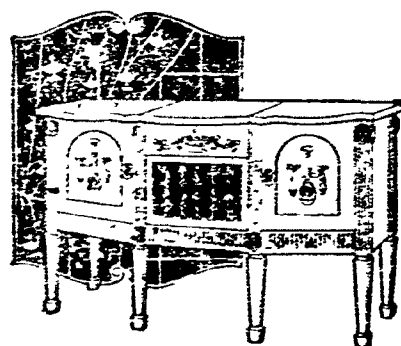

The former exemption included all
paper costing five cents.

J. P. MORGAN & CO. GETS BRITISH GOLD

English gold being unloaded at U. S. Assay office.

Here is a part of the consignment of \$9,200,000 in British gold brought
to New York recently on the steamer Carmania and sent by truck to the
Assay office—which is just across the street from the offices of J. P.
Morgan & Co., to whom the gold was consigned. These shipments are to
rebuild the balances in anticipation of the maturity of the Anglo-French
loan, which comes due in October.

THE CHURCH IN ACTION

ONE of the hopeful signs of the times is this Interchurch World Movement which this week will launch a drive in America for nearly \$100,000,000 to carry on a vast and comprehensive scheme for world betterment, not religious alone, but social, educational and physical.

Thirty religious denominations with a membership approximating 100,000,000 are involved in this greatest religious cooperative movement of all times. A world-wide survey forms the basis of the movement. In this survey the weakness and shortcomings of the church itself have not been spared. The causes of the decline of the country church; the failures of the church in large urban centers; the entire missionary field; the causes and ill effects of involuntary poverty and the resultant disease and crime; the needs of the denominational schools and colleges; the betterment of church-supported hospitals and other benevolent institutions, have all been included within the scope of this survey and within the present year will begin to feel the quickening influences of an aroused and militant church spirit.

This movement is at once an admission and a hope. The fact that it is an interchurch affair is an admission that the church is at fault, fatally at fault, in the division of its strength into scores of jealous and almost warring factions. It is pregnant with hope that, seeing its vital defect, the old embittered, unchristian era of competition is to be replaced with a new and brighter era of cooperation.

Slowly the world is awakening to the Brotherhood of Man, the ONENESS of the race. At last we are realizing that it is easier to pull together than it is to pull apart. Thru bitter experience the world is learning that war and strife and bloodshed are not the natural state of man and the church is learning its lesson along with all other human institutions.

The militarists and advocates of the "rule of the strong" and those who smile at the theory that reason and love are stronger factors in human progress than force and the mailed fist are openly laughing at the seeming failure of the League of Nations, but they are laughing too soon. Forces stronger than all the armies of Christendom are slowly but resolutely bringing to pass as complete a federation of the political divisions of the earth as our own federal government effected a union of the separate states.

The church is only a part of this restless movement. But it is a vital part and in time it will lead in unifying the seemingly diverse and irreconcilable interests of mankind. This Interchurch World Movement in years to come will undoubtedly mark one of the historical beginnings whose culmination, in another century or two, will see the end of senseless warfare and commercial strife and the blending of hostile governments in one great democratic brotherhood of nations.

Of this irresistible trend a modern writer says: "Slowly the mind of Destiny is carrying out its purpose. That manifest purpose is the oneness of mankind. The history of the universe proceeds from chaos to the stars, from disorder to order, from competition to co-operation, from the spirit of national

selfishness, which is empire, to the spirit of national intelligence, which is federation."

If thirty denominations with their millions of members can unite this year on one drive for a fixed sum to be devoted to certain fixed purposes, they can unite more closely on a more comprehensive program ten, twenty-five, fifty years hence. If the spirit of bigotry and unreasoning opposition is dying out in the churches to the extent that closely allied denominations are at last throwing down all barriers and uniting in purpose and name for the evangelization of the world, what other forward looking movements may we not expect, even before the present generation passes from the scene of earthly action?

It is a large sum this Interchurch World Movement is asking. Yes, but if America can stand two billions a year for booze, it ought at least not falter when asked for a third of a billion for religious, social and educational experimentation. Some of this money will be wasted or at least ill-advisedly spent, say the critics. Yes, but the bulk of it won't, while every nickel that went for booze was wasted and they who spent it knew at the time that it would be worse than wasted.

We believe that with the grant of so stupendous a sum of money responsibilities that will tax the wisest heads of the church in its expenditure, but there are wise and statesmanlike men at the head of the movement such as John R. Mott, Robert Lansing, George M. Fowles, Earl Taylor and scores of others who are cosmopolitan in their grasp of world problems and who are accustomed to big responsibilities and the expenditure of vast sums.

Let us be optimists, not pessimists, but our optimism, to amount to anything, must be backed by faith and generosity and hard, intelligent work. Progress is the law of the universe, but progress never comes to the indifferent, the slothful, the faint-hearted.

While all history proves that the race, on the whole, goes forward, yet history also proves that all substantial progress is slow and attained by the blood of martyrs and infinite sacrifice. So it behooves us to curb impatience and restrain our cynical and hypercritical tongues. If the ultimate good we seek cannot be obtained for us in the here and now, that fact does not excuse us from working patiently and ceaselessly that some future generation may enjoy the blessings we today seek in vain.

But, whether we will or no, the race is bound together in indissoluble chains. America cannot ultimately prosper, either in spiritual or material good at the expense of Germany or France or Japan. We are all in the same boat. And it is by helping others that we best help ourselves. As Whittier so well expressed it:

That laws of changeless Justice bind
Oppressor with oppressed;
And close as sin and suffering joined,
We march to Fate abreast.

PEOPLE'S FORUM

THE CANAL'S FIRT NEED—WATER

Editor The Tribune:

Having read with some interest the news matter published in the Tribune following the visit a few weeks ago of the Zanesville friends of the proposed canal and later your editorial views, and still later articles from J. R. Alexander of Zanesville and L. D. Schott of Haseco, the following article, of a movement which took shape over

25 years ago when by an Act of Congress surveys were authorized to be made by Army Engineers to determine the feasibility of enlarging the Ohio Canal and the Miami Canal from the lake to the Ohio river and also a route from Sandusky to Portsmouth via Columbus. The surveys as authorized were made.

Considerable portions of the canal were at that time in operation. The promotion of a large canal project at this time and under quite changed conditions as compared with those of 25 years ago has not gone on far enough to have any of the essential features worked out, and they are not likely to be until the government takes charge of it as before.

The especially knotty problems which will have to be met and solved beyond the possibility of doubt is not one of finance or engineering, but simply the matter of sufficiency or insufficiency of water supply at the Tuscawawas-Cuyahoga summit to maintain the operation of a large canal of seven feet in depth and corresponding width, passing over this summit.

This summit, also known as the Portage summit or level, extends from Akron to Barberton, a distance of 9 miles, and the water supply which must be sufficient to maintain during the seasons of navigation the movement of boats thru the summit level, must also provide for the operation of the canal south of Barberton to the first Tuscawawas feeder at Clinton, a distance of 6 miles, also, on the Cuyahoga side of the summit, 2 miles to the first feeder, in all a distance of 15 miles and on this section there are 24 locks, 21 of them on the Cuyahoga slope, 15 of them within less than a mile in the city of Akron.

The number of locks is mentioned here as indicating the draft upon the water supply thru the passage of boats or barges over this 15-mile section.

The source of water supply at the summit has been from the first construction of the canal a chain of lakes southeast of Akron and the supply coming from these lakes has been augmented from time to time by the construction of storage reservoirs fed from these lakes. There are quite a number of lakes, large and small, all connected, the two larger ones known as Long Lake and Turkey Foot Lake. The reservoirs are known as East, West and State Mill Reservoirs.

The total water area of this system of natural and artificial lakes and reservoirs is about 2100 acres and the drainage area 42 square miles.

Something over one half of the water (Continued On Page Six)

Orders for refilling and furnishing baskets, lawn and cemetery vases and porch boxes are coming in rapidly at the Williams green house. Get your order in now while plants are plentiful.

Mrs. Margaret Mizer will return to her home, 344 south Ninth-st., today after having spent the past several weeks in Canton with her daughter, Mrs. Frank Bachman.

The Woman's club meets at the library Wednesday afternoon at two o'clock.

Russell Keagy of Columbus is visiting over Sunday with friends in the city.

Mrs. William Hamacher and Mrs. Clarence Tuller will return to their homes at Bucyrus today after having been the guests of Mr. and Mrs. John Cooper, 332 Locust-st.

Hundreds have been delighted with the display of hanging baskets and vases at the Williams greenhouses this week.

Mrs. Lottie Zerbe and son William, 455 south Fifth-st., went to Massillon Saturday to spend a few days at the home of Mr. and Mrs. Heary Hose.

The Reciprocity Day party of the Historical club will be an event of Monday afternoon at 2 o'clock at the home of Mrs. J. A. Compton, 834 Main-st. Response to roll call will be answered by current events and representatives from the various clubs

thruout the city will appear on the program.

Miss Helen Brown, 235 north Sixth-st., and Mrs. Seth M. Snyder, 327 south Fourth-st., will go to Lancaster Monday where they will attend the annual convention of the Central district of the Women's Federated clubs of Ohio.

Mrs. Samuel Gamble, 811 Walnut-st., and guest, Miss Elizabeth Gamble of Pittsburgh, Pa., are spending a few days with friends at Columbus.

Saturday evening, May 1, the Y.P. A. of Nellie will give a supper at the school auditorium.

Mrs. Russell Horn and daughter, 365 south Fifth-st., are spending several days with relatives at Nellie.

The West Lafayette Normal school has prepared an interesting program which is to be given Tuesday evening at the town hall. The program follows:

Piano duet, Allison Barrett and Hattie Conrad.
Sextette Normal girls.
Musical reciting by Katherine Vinzel.
Farmerette drill.
Pleasant pictures by Grace Alexander.

Quartet, Normal boys.
Reading by Grace Markley.
Vocal duet, Ernestine and Lois Dickerson.
Group of illustrated songs.
Song of the butterflies.
Playlet, "Madam De Casaba."
Solo, Agnes Trego.
Reading, Anna Fender.
Historical pictures, Edith Botimer.
Star Spangled Banner.

"Say it with Flowers." A. B. Williams, Florist. Cor. Vine & 10th-sts.

The Senior Queen Esther society of Grace M. E. church will meet Monday evening with Miss Ruta Wean, 422 Walnut-st.

Home Study club meets in regular session Monday evening at 8 o'clock at the home of Mrs. A. B. Markley, 137 south Seventh-st.

Russell Kreider of Roscoe and Robert Boal, east Main-st., are spending today in Newark with relatives.

Miss Ethel Trumbo, Miss Isabelle Musser and Richard Frank of Donnellville are guests at the home of Mr. and Mrs. Fred S. Wallace, 718 Main-st.

Mrs. Frank Arohnalt, 248 north Third-st., was hostess at the meeting of the T. B. club Thursday evening. The evening was spent in social conversation and several piano solos were given by Mrs. Ralph Leffler. Mrs. Frank Hook assisted the hostess in serving refreshments to the following: Mrs. Charles Lepley, Mrs. Charles Clark, Mrs. Ralph Leffler, Mrs. Anna Birch, and Mrs. Samuel Sapp of Steubenville, a guest of the club. The meeting for May 6 will be held at the home of Mrs. Frank Hook.

The Woman's Music club will meet Tuesday evening at the Compton-Price music store with Mrs. Charles Dale in charge of the program for the evening.

The Marimba South American band will play for the dance which is to be given Thursday evening, May 6, at the Red Men's hall under the auspices of the Colonial-Belvedere, clubs. In addition to furnishing music for the dancing, special concert numbers will be played.

The band is composed of seven people who have acquired for themselves no little credit as musicians. They recently finished a successful six weeks' engagement at the Desher hotel at Columbus and for the past few weeks they have been playing at the Columbus Athletic club. Their coming to Coshocton is being awaited with much interest and the dance promises to be unusually delightful.

Y.W.C.A. NEWS

By E. E. FARQUHAR

The health and recreation committee will meet at headquarters Tuesday afternoon at 4 o'clock instead of Monday afternoon.

This afternoon at 4 o'clock Miss Aves and Miss Murray will bring to the women and girls of Coshocton interesting bits from the National convention held in Cleveland. If you are interested in the discussions that took place there and if you are anxious to learn more concerning the amendments that were adopted at the National convention be at headquarters this afternoon at 4 o'clock.

A religious forum is being planned for May 7, 8 and 9. Miss Rachel Brooks from the National headquarters, New York city, will be here. A play and mass meeting will be among the features, to which the women and girls of the city are cordially invited. The plans have not been completed but save the three above days and watch for further announcements.

It has become necessary to discontinue the noon day lunches which have been served at headquarters for the past several weeks.

Teh ukelele class has become so large that it has been divided.

Every LAP-LOT is expected to be present at the musical show rehearsal Monday evening at 7:30 at the Carrie B. Glass music store. We have but a short time until the show is to be given, which means that we must practice and practice hard. Please be there promptly at 7:30 Monday evening.

A fudge party was given at the club rooms Friday evening. Those present were: Ruth Bible, Margaret Bible, Sarah Stewart, Hazel Wilson and Alice Bailey. The party was chaperoned by Mary Stewart and Velma Gause.

PARIS CRITICS GIVE HIGH PRAISE TO A NEW DANCER

PARIS, April 24. — A mysterious new dancer, who, the critics declare, will create a greater sensation than Nijinsky did, made his debut here recently.

He is a youthful Swede named Jean Borlin and was "discovered" by M. Kokline.

Borlin began his studies at the age of eight at the old Stockholm Royal Opera school. At twenty he was a star on the wedish operatic stage. He learned foreign languages in order to make a world tour, vowing not to dance, but to study and to perfect his art. He refused M. Fokine's offer to take him to Paris, London and New York.

After conquering the public in the Scandinavian countries, he travelled, Nijinsky did, made his debut here re-

cently. He is a youthful Swede named Jean Borlin and was "discovered" by M. Kokline.

Borlin began his studies at the age of eight at the old Stockholm Royal Opera school. At twenty he was a star on the wedish operatic stage. He learned foreign languages in order to make a world tour, vowing not to dance, but to study and to perfect his art. He refused M. Fokine's offer to take him to Paris, London and New York.

After conquering the public in the Scandinavian countries, he travelled, Nijinsky did, made his debut here re-

gypsies in Spain, acquired the secrets of the Gitanes, spent weeks with the dervishes of North Africa, and astonished the sheikhs by his art. He was made a prince of the Ouled Mall nomad tribe, and received showers of jewels and presents from dusky tentates.

He came to Paris two months ago with a magnificent wardrobe of Oriental costumes, and will dance for the first time before the Paris public at the Comedi des Champs Elvses in creations from "Scheherazade," "Carnaval," "Les Syphians" and "Cleo-patre."

Case Set For Monday

The case of A. McQueen and J. C. McQueen against M. C. Woods is set for trial in common pleas court Monday.

J. M. Sensibaugh, Triway Route 1, was a business visitor in the city Saturday.

John Wilhelm, Coshocton Route 2, spent Saturday in Coshocton on business.

Cyrus McCoy, Conesville Route 2, was in town on business Saturday.

SHE'S BEST 100-YARD SWIMMER IN CANADA

France to Put Ban on American Luxuries

PARIS — A new ban on luxuries from America and other countries is about to be imposed by the French Finance Ministry. Silk stockings, pianos, jewels and similar articles, classed as "de luxe" wares, are to be barred.

The recent boom in the American and British exports to France, tending to lower exchange, makes it necessary, it is explained.

BRIGHT SPOTS IN THE DAY'S NEWS

Two women were walking along the streets at Cincinnati enroute to their homes. They had attended a meeting of a club at which an amateur mind-reading stunt was the feature of the program.

One was a middle-aged maid, her attire displaying a preference for a number of the old-fashioned styles.

The other was a young miss, of high school age, garbed in up-to-the-minute clothes.

"Why do you waste so many hours on beautifying devices?" inquired the elder lady. "Why not devote that time to thinking beautiful thoughts?"

"Oh, fudge," replied the young miss. "My beau isn't a mind reader."

Miss Helen C. Fitzsimmons.

This good-looking young woman recently won the 100-yard swimming championship of Canada. She hails from Outremont, Montreal.

SHEA POINTS TO LESSON OF THE GREAT STRIKES

Tells Railroad Labor Board Men Will Not Work For Less Than Living

WASHINGTON, April 24.—"Men will not work when they cannot live decently on the wages they are paid," Timothy Shea, speaking for the Brotherhood of Locomotive Firemen and Engineers told the railroad labor board today. This, Shea said, is the lesson of the steel, coal and railroad strikes.

He declared that when he urged the striking railroad men in the eastern terminals to return to their jobs their almost universal justification for going on strike, was that they, and their families "were starving at work."

Shea presented the demands of the firemen for a basic living wage of \$4.50 per day, with differentials for responsibility, skill, experience and the increase in the cost of living since the demands were first presented last June.

No other basis of compensation than this would be acceptable Shea said. He warned the board against the danger of further delay in settling the wage demands. "The men are fed up on promises and dog tired of delays," Shea declared. "We have been patient. We have been patriotic. We were patriotic while thousands and tens of thousands of war millionaires were being created, and who paused only long enough in their orgy of spending to sky rocket prices once more. Our people say they will no longer be patriotic only to be plundered and patient only to be pauperized."

RAILROADS LOCK OUT SWITCHMEN

CHICAGO, April 24.—The strike of switchmen in the Chicago district was virtually turned into a lockout today when a number of the railroads affected hung out signs in their yards inscribed, "No more men wanted."

"It will make no difference in our policy whether or not the strikers return to work," said C. S. Christopher, superintendent of terminals for the Chicago, Milwaukee & St. Paul R. R.

We don't intend to hire any men," John Grunau and other arrested

strike leaders were to be given a hearing later in the day on charges of violating the Lever act.

POLICE PROBE THE SHOOTING OF YOUNG LOVER'S SWEETHEART

WHEATON, ILLS., April 24.—County Judge Rathje today was just about to distribute \$200,000 apiece to the nine claimants of the \$3,000,000 fortune of William P. Cowan, former president of the Standard Oil Co. of Indiana, who died in the state, when William Lowery, a horny handed farmer from Missouri, stopped the proceedings by appearing in court and announcing he was a son of Mr. Cowan by a common law wife, and claimed he had documentary evidence to prove it.

The judge immediately held up the payments to the nine claimants. The case will be re-opened, the judge indicated, if Lowery can prove the truth of his statements.

11 Tractors In One Township

KACKLEY, KAN.—Beaver township, Republican county, holds the state's record for the number of tractors owned in one township. Eleven farmers near here now are using "iron mules" to plow wheat fields.

Nearly a thousand more acres were sown to wheat this year than last. The increased acreage is believed to be due to the use of the tractors.

THANK YOU!

Minces Under Selling Store

Owing to the bad weather conditions during the past two weeks, and knowing that all our customers did not have the opportunity of taking advantage of the big bargains, we will continue this sale one week longer. Sale will positively end Sat. May 1.

PEOPLES FORUM

(Continued from Page Four)

ter area consists of natural lakes.

The discharge from these lakes and reservoirs and from one to the other is regulated by gates so that the stored supply may be conserved in time of drought, or to relieve the reservoir embankments in time of heavy rainfall.

The outlet from this water supply to the canal is not far from the middle point of the summit level, all discharging thru Long Lake.

In the preparation of plans for the improvement of the canals as authorized by the legislature and its appropriations, Chas. E. Perkins Chief Engineer of Public Works of Ohio recommended that all construction affecting the depth of the navigable channel be built with reference to a five foot depth instead of the old standard depth of the Ohio canals of four feet.

This recommendation was carried out in the dredging and in the building of locks and smaller structures.

In order to insure as far as possible an adequate supply of water on the summit level, Mr. Perkins also advised an adequate supply of water on the summit level, Mr. Perkins also advised the construction of an additional reservoir to be built adjacent to the reservoirs already in use and connected therewith.

This reservoir, known as State Mill reservoir, was built in 1907 and has a water area of about 165 acres with an average depth of 10 feet. To acquire this site necessitated the purchase of about 200 acres of land, part of it a marsh.

As reference has already been made to the government survey of 25 years ago on the Ohio Canal and the Miami Canal routes, the third of the three authorized was the Sandusky to Portsmouth route via Columbus on which no part of any canal was ever built.

The Ohio Canal route survey is known as the Chittenden survey and a few copies of the report are in the hands of canal officials and others. Capt. Chittenden was in immediate charge of the survey.

The act authorizing the surveys specified that the surveys be made with a view to "improving and widening such canals to 70 feet at water line and deepening same to seven feet and constructing new locks of not less than 150 feet in length and 21 feet in width with a capacity for vessels of 250 tons burden."

The Chittenden report seems to have been more sanguine of ample water supply for a seven foot canal than Chief Engineer Perkins was as to a 5-foot canal without additional reservoir capacity. Mr. Perkins' opinion, whatever it may be at this time, is entitled to considerable weight since he is a life long resident of Ak-

ron and has been Chief Engineer of Public works for 16 years and in touch with all matters involving maintenance of this canal of which water was one of the most important and had canvassed every feature of construction and upkeep of an improved canal for years in advance of the first state appropriation for that purpose which was made available in 1905 and succeeding years to 1910.

Referring further to the U. S. Engineers Report on the Ohio canals, the finding was that it would "be feasible to construct a canal of the dimensions specified in the Act of Congress upon any of the three routes described, but that the construction of such a canal (by the Government) would not be advisable."

This conclusion may or may not have arisen from the fact of the limitation to seven feet by the language of the act.

Quoting from one of Mr. Perkins' annual reports, he writes:

While the Board (U. S. Engrs.) held that it "would transcend the limits of its duty as defined by law" to report on the feasibility of a canal 10 feet in depth, with locks 26x200 feet that was considered the least size to navigate the lakes, they referred to Capt. Chittenden's Report, who found that such a canal was feasible and practical on any of the routes named, except possibly the Eastern Route (Ohio Canal route) the only question at issue being the water supply."

The report gives as the cost of building a 7-foot canal on the Ohio Canal route as \$12,500.00 in 1895.

One of the sources of water supply to the Cuyahoga river noted in the board's report that at Kent, has within a few years been entirely taken over by the city of Akron as a part of its domestic supply.

On the other hand, industrial concerns, particularly the rubber works on the line of the canal in the city draw large supplies from the summit supply direct from the canal channel which is the only market the State has had for several years, but in the event of the re-establishment of navigation by the building of a large canal this disposal of the State waters may be cancelled since in the old boating days nearly all sorts of uses of water were subordinated to navigation.

In a recent newspaper, a Mr. Hall of Akron is quoted as recommending the canalizing of the Tuscarawas river and the Muskingum to Dresden from the summit at Akron.

Whether practicable or not the same conditions as to water supply would be met with at the summit.

There were prior to the advent of railroads numerous canal projects in Ohio, independent of state aid, some of them were partly built and one or two entirely so. They failed, but not on account of the railroads which came on soon after, but on the lack of water supply which they never had.

A notable case of this was the Sandy and Beaver Canal which was built from the Ohio Canal at Bolivar in Tuscarawas County thru Carroll and Columbiana counties via the Sandy and Beaver valleys to the Ohio river at a point near the Ohio-Penna. state line. No boat was ever floated on this canal of about 60 miles in length, except the contractor's boat.

The Engineers who located the Ohio Canal were New Yorkers or at least had been employed in the construction of the Erie Canal in New York state. They came to Ohio at the request of the Ohio Canal Commissioners in the '20s on account of their experience in location and building on the Erie Canal work.

Somewhere in canal history it reads that the location of the Ohio canal from Roscoe to the summit thru Coshocton and Holmes counties was via the Walhonding valley and Killbuck

as a part of the route, but that before contracts were let the Engineers and Commissioners concluded after a good deal of investigation that the Tuscarawas route afforded better water facilities, although a more expensive route to build a canal over.

It is recalled rather dimly that the Killbuck route did not touch Akron or Cleveland but reached the lake thru the Black River valley at what is now Lorain, the summit being in Wayne or Medina counties and that a part of the plan was to supply the summit water from the Akron lakes by a feeder of considerable length, probably 20 or 25 miles, and the avoidance of this long feeder may have been a controlling factor in the change of the route.

J. A. HANLON, Engineer in charge Ohio Canal Improvement, 1906-10. Coshocton, April 23, 1920.

NEWSPAPER ARCHIVE

Col. Theodore Roosevelt Says

"It gives me great pleasure to endorse the candidacy of Leonard Wood. He is a man of fearless disposition and strikes out boldly for what he considers right. He is a man of proven experience as an administrator. He has demonstrated this ability in Cuba and in the Philippines. He has thought out on liberal and constructive lines the great economic problems we will need in this country in the coming decade. Under him I feel confident that the country will work forward to a very increasing influence and stability."

Governor Peter Norbeck Says

"I am for Leonard Wood because he has a constructive mind and has progressive tendencies. He is the Roosevelt of today."

"His work as a civil administrator in Cuba is that of a statesman. He brought the people out of chaos and created a nation based upon American ideals. He re-established agriculture, he built highways and railroads, remodeled the courts and established justice. He dealt vigorously and successfully with the profiteers. He created respect and good will for America that will insure to our benefit in the centuries to come."

Be sure YOU vote for

Leonard Wood For President

At the Primaries, Tuesday, April 27th

How to Vote for Leonard Wood

If you want to vote for Leonard Wood for President at the primaries, April 27th, you must vote for his candidates for delegates-at-large, and his candidates for delegates and alternates in your congressional district. They will register your expressed will at the Republican National Convention, which will assemble in Chicago, June 8.

They are:

For Delegates-at-large—

(X) Edward C. Turner

(X) William H. Boyd

For District Delegates—

(X) Barney Brogan

(X) E. S. Randolph

For District Alternates—

(X) Dr. B. Frank Humbert

(X) Garry Wirt

On the preferential ballot put an X before the name of Leonard Wood.

On the delegate ballot put an X before the names of the candidates for delegates-at-large and the names of the district candidates for delegates and alternates mentioned above.

STUTZ MOTOR STOCK SETTLEMENT PRICE IS FIXED AT \$550

NEW YORK, April 25. — Agreement was reached here today between Allan Ryan and the members of the protective committee respecting stock exchange houses which are short of Stutz Motor stock. The settlement price was put at \$525, plus stock dividends and premiums which makes the total settlement price \$550 a share. The Stutz controversy has resulted in one of the keenest battles that Wall Street has known in years. As the result of an alleged corner of the stock by Allan A. Ryan, on which the issue rose from a low of 100 3/4 to above 300, the governors of the stock exchange suspended the issue from trading on the exchange. Ryan thereupon requested that the

stock should be stricken from the exchange list so that a market could be created on the curb for the issue. On the curb the stock sold as high as \$730. Ryan threatened to buy the stock in at the market today unless a settlement was reached before 10 o'clock this morning, which resulted in the hurried settlement.

WOULD PLACE BAN ON AIRGUNS

BEARDSTOWN, ILL. — Indignant over the careless and promiscuous use of air guns by prankish boys at Beardstown, the chief of police there is endeavoring to bring air guns under the ban of gun toting.

WHITE STRAW HATS IN LONDON

LONDON — Fashionable London men are wearing white straw hats and white spats.

GOULD DRANK QUART OF WHISKEY BEFORE BREAKFAST EACH DAY

NEW YORK, April 24.—The battle ground for the marital wrangles of Frank J. Gould, multimillionaire member of the noted Gould family, was shifted from Paris to New York today. Mrs. Edith Kelly Gould, the actress second wife, from whom Gould was granted a divorce in French courts last spring, has filed a count action for divorce here claiming that the French courts had no jurisdiction. Startling charges of Gould's intemperance and wild mode of living are contained in the complaint filed in New York. Mrs. Gould charged that it was her husband's custom to drink a quart of whiskey daily before 8 A. M. "after which he would sleep until afternoon and then resume drinking." From 1911 to 1918 she charges Gould was in a habitual state of intoxication. During these protracted drinking periods, Mrs. Gould charged, it was practically impossible to get her husband to bathe oftener than once a month. She also charged frequent unfaithfulness with various French women in Paris during the period of their marriage—from 1911 to 1918. They were married in 1910 in Scotland and separated in 1918 in Paris.

Too Fat?

EASY, HOME SELF TREATMENT
OVERSTOUTNESS weakens the liver, becomes sluggish, the fat accumulates, the heart action becomes weak, work is an effort and the beauty of the figure is destroyed. Fat is unhealthy; there is danger of heart collapse and other serious disorders. Don't allow your health to be ruined through a burden of unhealthy fat. Spend some time daily in the open air; breathe deeply, and get from any druggist a box of oil of korein and follow korein system simple directions that come with the box. Weigh yourself every week. Continue reducing steadily until you are down to normal. Oil of korein is absolutely harmless, is pleasant and even a few days' treatment is likely to show a noticeable reduction. Korein system has succeeded where other remedies, etc., have failed. It is the delight of those who wish to improve their figure and to acquire a young, active appearance. \$50.00 guarantee that you reduce 10 to 60 pounds, (whatever you need to) or cost you nothing! Buy oil of korein, in a box, at any drug pharmacy; or write for free brochure to Kurelin Co., Station F, New York, N. Y.

Most Exquisite Perfume at \$5.00 A Drop In Paris

PARIS — Paris society is gossiping about a sensational discovery of perfume almost as precious as radium. "The Princess of Rospigliosi," who had "inside information" of the discovery, purchased 500 drops at \$2,500 a drop. The perfume is declared to be the finest and most exquisite in existence. One entire ton of seaweeds yields only five drops of the precious substance.

WOMAN WILL SEEK SEAT IN CONGRESS

Mrs. Helen C. Statler of Kalamazoo, Mich., has announced her candidacy for nomination for congress on the Republican ticket from the Third Michigan district. She has been endorsed by a committee of Michigan women headed by Mrs. Caroline Bartlett Crane, well known authority on civic conditions. Mrs. Statler is the daughter of Col. F. W. Curtenius, Civil war officer, and granddaughter of J. P. Woodbury, one of Michigan's leading financiers in the '70s and '80s. She is a graduate of Wells college.

"Rum Rebellion" Chief Joins Order of Camels

NEW YORK — Coincident with the announcement that William ("Pussy-foot") Johnson will arrive in this city from England shortly, comes the report from the headquarters of the Order of Camels, which unfolded its tents in the Fitzgerald Building, Broadway and Forty-second street, that Martin S. McDonough, District Attorney of Iron county, Mich., who won out in the "rum rebellion" over the United States prohibition officers, has joined the Order of Camels. The campaign of enrollment for this city was launched recently. The new organization, which came into existence in Milwaukee, the day the prohibition amendment became effective, will have a caravan in each section of Manhattan's desert to enlist followers of the order. The Great White Way will soon be the headquarters of the Bedouins of the Oasis, the Keeper of the Camel and the prophet.

\$400,000 Romanoff Gems Are Being Brought to U. S.

PARIS — Adolph Zukor is en route to New York carrying a pearl necklace valued at 2,000,000 francs (normally \$400,000), and believed to have been formerly owned by one of the murdered Romanoff princesses.

THE "BALOS" OF RUSSIA

LONDON — The English press now refers to the Bolsheviks of Russia as "Balos."

Milady of Fashion To Wear Feathers On Her Feet

NEW YORK — Feathers of various shapes and hues are to sprout from shoetops, according to Mme. Jean Crikboon, a Paris fashion writer, who arrived from Havre on La Touraine. She came for funds to care for Paris shop girls, and told of the latest Paris fad. Many Mercuryfooted girls have appeared on the boulevards there.

Bequeaths Fortune to Care of Homeless Animals

LONDON — Dr. Ernest W. Cottle, famous skin specialist, died here recently and his will gives \$450,000 to feed homeless domestic animals and protect them from harm at the hands of men.

Airplane "Joy-Rider" Arrested

LONDON — Claude Loftus Le Champion is being prosecuted in police

court for "joyriding" in an airplane, the first case of its kind, being based on his alleged failure to procure a license or carry British markings.

Unladylike Behavior.

Bernice was in the habit of calling her father on the telephone. On one particular occasion she had lifted up the receiver and had asked for the number wanted. After waiting about a minute the operator told her to hang up because the line was busy. After she hung up she exclaimed to her mother, standing close by: "Oh, mamma, the lady chased me off the phone."

SOLON'S DAUGHTER WILL SOON BE "BUD"

Miss Helen Hadley.

Miss Helen Hadley, daughter of Representative and Mrs. Lindley H. Hadley of Washington, is an attractive western girl and near future congressional "bud." She is a senior at Smith's College, to which she recently returned after spending the Easter holidays with her parents.

FLIGHT OF VIRGO HOLDS UP TRIAL OF MURDER CASE

PAW PAW, MICH., April 24. — Search for Joseph Virgo, now the chief figure in the trial of Mrs. Sarah Tabor in connection with the death of her daughter, Maude Tabor Virgo, was redoubled today, when a recess in the trial was taken until Monday in the hope of locating him and bringing him here to testify. It was learned that Virgo left his home at South Bend, Ind., on learning that he was wanted as a witness at the trial and that he had not been seen since by any one knowing him.

Mrs. Tabor, the aged defendant in the manslaughter case, was on the verge of collapse when the edict "get Virgo" was announced.

Pocket Thief Alarm.

A thief alarm invented in Europe is small enough to be carried in a vest pocket and explodes a cartridge when any object under which it is laid is moved.

RUPTURED? TRY THIS FREE

New Invention Sent on 30 Days' Trial Without Expense to You.

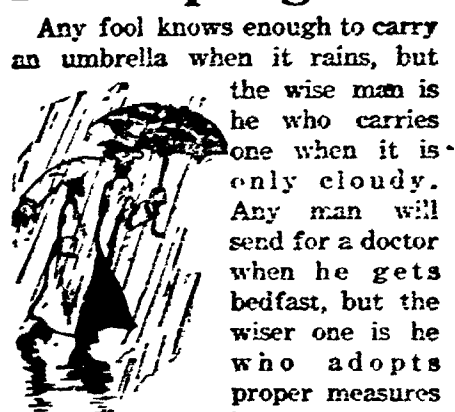

Simply send me your name and I will send you my new copyrighted rupture book and measurement blank. When you return the blank I will send you my new invention for rupture. When it arrives put it on and wear it. Put it on every day. You can't tell if the rupture is there the better you will like it. You will wonder how you ever got along with the old style, cruel spring trusses or belts with leg straps of torture. Your own good, common sense and your own doctor will tell you. The only way in which you can ever know is a cure. After wearing it 30 days, if it is not entirely satisfactory, every way, if it is not easy, and comfortable, and you cannot actually see your rupture getting better, and if not convinced that a cure is near, a question of time, just return it and you are out nothing. Any rupture appliance sent on 30 days' trial without expense to you is worth a trial. Tell your ruptured friends of this. EASHOLD CO., 1931 Koch Bldg., Kansas City, Mo.

In the Spring Time

Any fool knows enough to carry an umbrella when it rains, but the wise man is he who carries one when it is only cloudy. Any man will send for a doctor when he gets bedfast, but the wiser one is he who adopts proper measures before his ill becomes serious.

During a hard winter or the following spring one feels run-down, tired out, weak and nervous. Probably you have suffered from a cold, the Grip or flu, which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alternative and temperance tonic is one made of wild roots and barks, without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system. First put up by Dr. Pierce over 50 years ago, now procurable at any drug store; or send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

BLAMES SHORTAGE OF HOMES ON THE LUMBER DEALERS

WASHINGTON, April 24. — Lumber profiteers throught the United States are the cause of "millions of homeless people and thousands of wretchedly housed families in all parts of the United States," Senator Capper, Republican, of Kansas, declared in a statement today before the senate.

An embargo on lumber for export was suggested by Capper as a "means to correct the evil." The forest service has been requested by Senator Capper to furnish figures relative to the sale of lumber so "that the government will have some basis for action against these profiteers."

Plan Monster Bike Track for New York

NEW YORK — A million dollar company, backed by New York business men will erect an open air standing in this city for professional and amateur athletics. Bicycle racing will be the foundation of the venture. A site has been obtained on upper Manhattan Island on the line of the Broadway subway, and work on the structure is to begin immediately, and rush ed. Plans have been filed and contracts let for the building of the grandstand, which is to have a seating capacity of 20,000. The plant will be known as the New York Velodrome and will cost in the neighborhood of \$250,000. A track bike track will be installed.

RAILROAD STRIKE HITS COUNTRY HARD

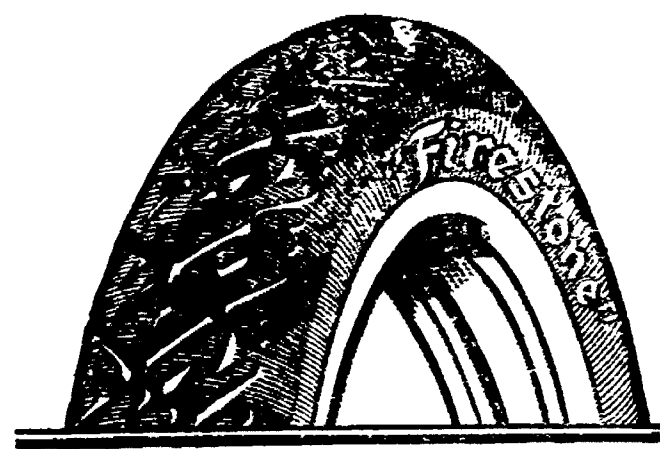

A. F. Whitney (upper left); John Grunau; stacks of parcel post mail piled in street, in front of Chicago postoffice; crowd hanging on trolley leaving Hackensack, N. J., for the Fort Lee ferry, N. Y.

THE pictures illustrate the out-law railroad strike which is tying up the great traffic centers of the country. The strike started when John Grunau was replaced as conductor of a Milwaukee road train carrying workmen to Chicago. The walkout began as a protest against Grunau's removal.

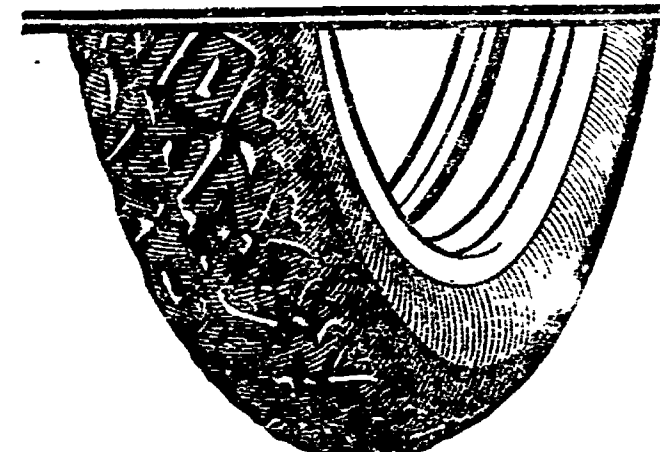

A. F. Whitney of Chicago, vice-president of the Brotherhood of Railroad trainmen, is a leader in the battle of the recognized unions

YOU who use 3 1/2 inch tires constitute more than half the tire buyers of the world.

To build this special molded 3 1/2 in. tire, a \$7,000,-000 factory was built and a special organization brought together.

Neighbors Harvest Crops, And He Quits Planting Any

WASHINGTON — "The population near and about my farm has a tendency to relieve the owner from the labor of gathering his own crops. This altruistic impulse is so predominant that I have refrained from planting anything for the past twenty years."

The above is a report received by the Census Bureau from a farmer in Pennsylvania, who was asked to make out a report for the agricultural census now being taken by the government.

The farmer added that he was "just now turning about forty acres into a

cemetery" and he hoped to "fill it to the heir of the Earldom of Warwick."

LONDON BEAUTY EXPECTS TO ACT IN THE MOVIES

LONDON, April 24. — Lady Eden, regarded as one of the most beautiful women in England is to act for the "movies" according to an announcement made recently.

Her portrait, as typical of English beauty, has been painted by a number of well-known artists and it was one of her pictures that led to a dispute with Whistler, which was fought out in the Paris law courts. Her late husband, Sir William Eden, who died in 1915, was a very talented amateur artist.

For her work in the war, Lady Eden was created an Officer of the British Empire and a Lady of Grace of the Order of St. John of Jerusalem. She lost two sons in the war and her third son, Sir Timothy Eden, who was studying in Berlin at the outbreak of hostilities, was interned. Her only daughter, Lady Brooke, is the wife

Couderts Pay Taxes on Czar's Locomotives

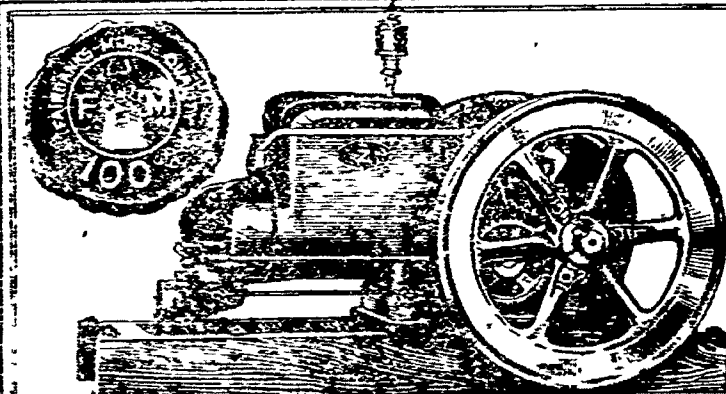

PATERSON, N. J. — Coudert Brothers, New York attorneys, have paid the Paterson tax department \$26,750 delinquent taxes on the forty-seven locomotives built by the American Locomotive Company of this city, in 1917, for the Imperial Russian Government. The locomotives were recently seized by Coudert Brothers on an execution secured by creditors of the late Czar Nicholas.

Because of the revolution in Russia the locomotives were never taken from Paterson and taxes were levied on them for 1918 and 1919.

MORE PAY FOR ARMY AND NAVY SERVICE

WASHINGTON, April 24 — General increases in salaries for army and navy officers and enlisted men were agreed to by the house and senate conferees on the military pay bill this afternoon.

Worthy enough. To preserve a friend, three things are necessary: to honor him present, praise him absent, and assist him in his necessities.—Italian Saying

The "Z" Lives a Long and Useful Life

"Z" Engine endurance is proverbial—it's a lifetime engine. That's because every part liable to wear is case hardened. Push rod rollers—valve stems and cams—contact parts throughout—are made immensely hard by heat treating. They will not wear—nor will they break.

The "Z" has an extra large crankshaft. Not one has ever broken. All "Z" bearings are die cast and removable. Every "Z" part so carefully made that it is absolutely interchangeable. Ample lubrication—positive—well-balanced, correct mechanical design—help make the "Z" the "lifetime" farm engine. On the job—dependable—powerful—always.

Other "Z" features are: Runs on kerosene; coal oil, tops, as well as gasoline; built in Bosch high tension oscillating magnetos; more than rated power; every part interchangeable; clean-cut, efficient design.

Merely Nominal Right.

The freedom of the city of London carries with it, nominally, at any rate, the right to keep pigs in the parish of St. James, Piccadilly. But even were any one disposed to avail himself of this liberty, and if the sanitary authorities failed to object, land in that part of London is somewhat too costly for profitable pig-farming.

NOT IN THE CIRCUS; SHE'S COLLEGE GIRL

No, this young lady is not in a circus, though she rides very gracefully in Roman fashion. She is Miss Elizabeth Wilcox, captain of the Wellesley college riding team.

Roscoe Wins Ball Game

The eighth grade team of the Roscoe schools won their first game of the season Saturday afternoon at the South Lawn school diamond by defeating the Coshocton high school freshmen by a score of 14 to 8. Chaney and Slaughter formed the battery for Roscoe and Cohen and Thornley for Coshocton.

Alderman Dares City Officials to Don Overalls

PROVIDENCE, R. I., April 24.—City government officials are dared by Alderman Jeremiah E. O'Connell, a dapper member of the bar, to wear overalls and old clothes in an effort to decrease the high cost of living.

"It is the only way to beat this increasing cost of living and hold profiteering, which will mean disaster if not curbed," said "Jerry," while the well-groomed city officials looked on with a smile. Alderman O'Connell told the gathering he would be the first to don overalls and would go a step farther and wear old clothes and promise not to buy any more clothes until prices took a tumble.

It is understood that a city hall organization is seriously considering the question and may appear shortly garbed in old clothes and overalls. If this is a reality, the alderman says he will stick to his proposition to the city government.

POWELL SCHOOL WINS HONORS

Promotion exercises in connection with a speaking and spelling contest for Adams-tp was held at Bakersville on Thursday, April 22.

The several schools were well represented. The first honors in the speaking contest were won by Evelyn Gallion, and the second by Anna Holthorn, both of Powell's school.

In the spelling Edith Emerson of Powell's school, took first prize, while the second was tied between Verneda Zedi of Woods College school and Laura Young of Powell's school. Evelyn Gallion was third best speller from Powells.

An interesting program was given in the afternoon by the Wood College and Powell school, in connection with several athletic feats.

NOTICE

DOCTORS DENY TEETH HIDE GERMS THAT ARE THE CAUSE OF INSANITY

Ohio Specialists Disagree
With Theory Advanced
By New Jersey Man

CINCINNATI, O., April 24.—Local specialists are not ready to accept the theory, recently proclaimed by Dr. Henry A. Cotton, New Jersey scientist, that insanity is due often to a very poisonous germ at the base of the teeth or in diseased tonsils than to diseases of the brain.

"The theory is too new to be practical," said Dr. Sidney Rauh, of the public school dental clinic. "There are some cases of insanity, arising from infected teeth, usually the 'wisdom' teeth, but these cases are of mechanical origin rather than due to a germ."

"I am sure if Dr. Cotton has found insanity originating in bacteria of teeth, or tonsils, these examples are only a small percentage," declared Dr. Emerson A. North, superintendent of Longview Hospital.

"Degeneration of the cells of the brain is the usual theory of insanity's origin, but degeneracy of some other part of the body may cause insanity," commented Dr. Louis Stricker, in charge of the Hamilton Country pension fund for the blind. "I am not prepared to say the teeth, or tonsils, are often responsible," said Dr. Stricker. He believed the new theory is a phase of a current fad or ascribing most of the body's ill to diseased teeth.

Is Improving

Mrs. Henry Wilhelm, near Keene, who was operated upon at the City hospital last Sunday, for the removal of gall stones, is reported to be improving.

T. P. Perkins, Dresden, spent Saturday in the city.

Tobacco Demand Steadily Grows In America

WASHINGTON—The computed per capita consumption of tobacco in this country has been steadily gaining since 1865, according to compilations made by the Bureau of Crop Estimates of the Department of Agriculture. Before that time, back in 1839, it seems to have been about 3.3 pounds. Following the Civil war the computed average is as low as 2. pounds, and this was followed by a climbing movement that reached 6.4 pounds in 1905-1914 and 8 pounds during the following four years.

Tobacco consumption in 1790, the oldest year for which it can be estimated, appears to have been nearly 29,000,000 pounds in this country. In 1917 it was 1,600,000,000 pounds, while in 1918 it dropped back to 825,000,000, rising to 914,000,000 pounds last year.

Pre-war consumption was eight times the consumption of forty years ago, and in the war years apparently ten times that quantity.
